Dear Harold and Lil:

I feel that I have neglected you all the last few days. We have been busy. We will be in Frederick on July 24 or 25 and the 26, then we go to Washington. More details to follow after we buy plane tickets.

Betsy is quitting her job at the prison. She has decided to go for her PHD. I survived the Indy 500. I always think of the James Tague story at that time.

I didnt keep a copy of my last letter, but I think I told you that I now have spoken twice with Don Wilson, the former FBI agent who claims to have taken some items out of James Earl Ray's car. When he called me to thank me for sending him Frame Up, we spoke about the case a little more. He again said that the FBI had never asked him to see the material he said he stole. But they condemned him as a fraud. He tells me that a reporter he spoke to has been contacted by FBI to see what he thought of Wilson.

He now tells me that Dr. King had a traitor in his organization, handled by an Atlanta FBI agent, who may have been responsible for getting King on that balcony at 6pm. This is the first time he has indicated that he actually knows anything about the case.

I guess I take it all with a grain of salt. I believe that I sent you a copy of the letter I wrote him, I can't remember.

He is more cynical about the FBI than you!

I believe that I told you Gary Webb wrote me back. Maybe he will write you. CIA-Contra-Cocaine.

Anyway Don Wilson seems legit to me, and has been very nice to me on the phone. I don't think he has anyone he can discuss this with.

I enclose a document that I ended up with. I think this is the only one. I also enclose a CAT catalog for your friends. In the back it has CAT sweatsuits, videos, hats, all sort of things. In the front it has tools I don't think they will need!

We are doing well. The state reclassified Betsy's job, so she must quit. She is more interested in teaching anyway. More job satisfaction. Last month, the attorney general wrote an opinion that Betsy had charged an inmate \$7 too much for his medical records. What bullshit. Probably cost the taxpayers \$3,000 for the opinion.

Rush Limbaugh is wrong about one thing. All liberals are not for high taxes. I'm not, except for Rush! Both state and feds waste a lot of money. Read an interesting article about the Chrysler-Mercedes merger. Seems some Jews are still touchy about WWII and refuse to buy Mercedes, and now may not buy Chryslers. My dad feels that way about Germans and Japanes-e
I'll write soon.
